

Leader's Notes

WEEK 2 *Evangelism*

- 1) Go around and allow those in your group to share. Since it is only the second week, you may have to be the first one to answer.
- 2) The key to this question is to be open and honest. Sharing our point of view helps us to evangelize in different ways.
- 3) Go around and allow those in your group to share. Remember, there is no right or wrong answer for this question.
- 4) This question is to formulate a method so that we may share God's love with others.
- 5) There are many practical ways we can freely give back. Serving our community out of love, visiting a local shelter, random acts of kindness, etc... The key is that we "freely give" since we have all been given mercy and grace through our savior, Jesus Christ.
- 6) Essentially, what we are to do is share with those who receive God's message. Our days are numbered. How we use the time God allows us is important. If you are witnessing to someone who does not want to accept, move on to more fruitful soil. Leaving seeds behind for others to harvest happens by default.
- 7) Sheep are docile, wolves attack sheep, snakes although shrewd in nature can be tamed, and lastly, gentle as doves is ultimately our love to the world.
- 8) Go around and allow those in your group to share. Remember, there is no right or wrong answer for this question.
- 9) Since this is the last question for the week, encourage those who have not shared to participate. Remember, there is no right or wrong answer for this question.
